About KINGHOME® Canada

KINGHOME® Canada is based in Toronto, Ontario. The company is missioned by Gree to introduce the premium Kinghome brand to the Canadian market, and to serve Canadians with the top-quality products and best-in-class after sale supports.

KINGHOME® 's commitment to you

Quality:

Kinghome Cold Climate Heat Pump reflects the highest quality standard by GREE. Its failure rate measure at one per million, which is 10 times better than the industry average.

Kinghome Cold Climate Heat Pump uses the top-notch quality material for the machine built-up. The machine weights 1.5-2 times heavier than most of the competitors' units in the market. It is heavy, yet extremely durable!

Technology advantage:

Kinghome Cold Climate Heat Pump is one of the few true Cold Climate Heat Pump. With the patented two-stage compress and vapor injection technology, Kinghome Cold Climate Heat Pump can supply 100% heating capacity at the -5°F (-20°C) for 2 ton unit, and reliable operation of -22°F (-30°C) for the entire series (2,3,4,5 ton unit).

Performance

Kinghome Cold Climate Heat Pump adopts the design of the side-discharge unit, the compressor has an independent closed chamber, sound insulation and noise reduction, which allows the machine to reach the lowest noise level in the industry.
